

Request for Proposals

(Date of first Publication 15/02/2066)

Alternative Energy Promotion Center (AEPC) is going to establish the “Renewable Energy Technology Innovation Fund” (RIF) with the support from United Nation Development Programme (UNDP) under Rural Energy Development Programme (REDP). The objective of the fund is to support the innovative ideas in the area of renewable energy technology and their productive uses. The fund focuses to the design and field testing of potential ideas and innovations in the forms of prototypes or pilot programs in the area of renewable energy technologies. The successful prototypes are upgraded for product development and promotion to benefit the mass. The innovation fund aims to promote partnership opportunities with the private companies, research institutes and individuals. The innovation fund will also support to carry out action research related to the livelihoods promotion activities and other productive use of renewable energy services.

1. Sealed Proposals containing technical and financial are invited from the interested, experienced and eligible NGOs/INGOs working in the field of renewable energy, research/academic institutions, community based organizations and private sector.
2. The ceiling for the financial proposal for this call is Rs. 300,000.00. The proposals to implement the project on cost sharing basis will be given priority.
3. Guidelines for preparing the proposal can be obtained during the office hours from AEPC or this can be downloaded from the AEPC and REDP websites.
www.aepc.gov.np, www.redp.org.np
4. Attested copies of the valid registration certificate, certified audit report of the last FY, tax clearance certificate, and in the case of consulting firms VAT registration certificate must also be attached together with the proposal.
5. Proposals must be submitted to the AEPC Office Address within 30 days from the first publication of this notice mentioning the “Proposal for RIF” clearly on the top of the envelopes.
